

Information
on performing COVID-19 rapid tests
and declaration of consent
for testing minors

To prevent and contain the spread of COVID-19, schools will be offering voluntary, case-based rapid COVID-19 tests to determine whether your child has an acute COVID-19 infection. Taking the tests, you will not incur any costs.

The tests are performed at school by the students themselves, under teacher supervision.

They are in the form of a brief nasal swab. All the details about the test and how it is performed can be found at:

<https://www.coronavirus.sachsen.de/eltern-lehrkraefte-erzieher-schueler-4144.html>.

If the test result is positive, i.e. indicating an acute COVID-19 infection, the tested person is required, under the current isolation rules ([Quarantine rules in Saxony - Coronavirus in Saxony - sachsen.de](#)), to isolate as soon as they receive their positive test result, and to get tested by a doctor or at a testing centre. Minors who test positive are separated from others and must be collected immediately by a parent/guardian. The school's duties of supervision apply until the time of collection.

If you wish to revoke your consent, this must be done with the school.

Consent:

I hereby consent to tests being performed to detect any potential COVID-19 infection and prevent the spread of this disease.

The consent is voluntary and may be revoked at any time with the school, having effect for the future.

I am aware that, if my COVID-test result is positive, I am required to isolate in accordance with the applicable isolation rules. This requirement is not affected by any revocation of consent.

Name and address of tested person: _____

City, date, signature of parent/guardian
